

Hello Alison And Rowan,

Just to say thank you for Saturday afternoon, which I found to be very interesting and enjoyable.

We would wish you to know how pleased we are with everything that has been available to us since we visited The Hub last year. I have been registered as partially deaf and fitted with a hearing aid. The Fire Officer has visited our home and arranged for us to be issued with a safety computer plug, 2 new smoke alarms a Bellman Telephone Transmitter and a Bellman Bed Shaker together with a Wrist Receiver and Charger. I have also been assessed by Bilbrook House for visual needs and domestic aids and we can't speak highly enough for the support we have received from this side of Social Services.

All the people who have visited our home have been very professional showing empathy and consideration for my health conditions.

A big thank you to both of you for helping to make this possible - without you we wouldn't have known how much was available to us.

Regards, Rita and David Jefferies
